US Lacrosse Coaching Education Program Continuing Education Opportunities
for Level 1 and 2 Women's Game Certified Coaches
2011 National Convention, January 21-23, 2011, Baltimore MD

- These sessions have been specially selected to augment the core curriculum that certified coaches have completed and to address immediate coaching issues that face the game today.
- US Lacrosse CEP certified coaches who attend all four opportunities receive one bonus CEO credit-hour. Each opportunity is worth one CEO credit.
- Please note that regardless of whether you are Level 1 or Level 2 certified; you may attend whichever Level session will help you the most when a choice of levels is available. Your certification level may not reflect the needs of your athletes this season, so please choose what will be best for you. You may only attend one session (on Saturday from 11-12pm).
- Make sure you have your badge scanned by a CEP representative after each session.
