

## 2018 Girl's Game Teachable Moment #1

**Recognizing the foul is good.**

**Recognizing the foul within the context of the play is better.**

**As you approach your season, challenge yourself to "see" the whole game...**

**Now you're on your way to Great!**

**For Example:**

**Your partner whistles the draw, and the ball goes away from your side of the field, still between restraining lines. As the ball nears the far RL, white player reaches over to pick up the ball. It is very apparent she will gain possession. She can then turn and make a quick run towards near Blue goal.**

**Beside you, a blue player steps over the RL - just before the White player has possessed the ball.**

**In this situation, calling the early entry on blue would disadvantage the white player. She has position and momentum to race towards goal. Don't stop her!**

**See the game.**

**Be great!**
