At all levels the officials should ideally match their uniforms with their crew - Kilts to shorts, pants to pants, matching sleeve length, Hats/Visors or none, etc... All officials should strive for a professional, consistent dress. Special considerations can be given to the entry level officials, however it is expected they will strive to look professional as they eventually accumulate the appropriate articles of the approved uniform.

Officials should be in proper uniform before arriving on the field and until after they leave the field of play.
